

RUSSIA AGREES TO PAY HER PRE-WAR DEBTS

IF SHE IS ACCORDED
RECOGNITION AS A
SOVEREIGN STATEAND WILL DISCUSS PROPERTY
RIGHTS OF FOREIGNERS
WITHIN HER BORDERTHIS IS THE OFFICIAL REPLY TO
ALLIES ON CONFERENCE
PARTICIPATION

(By United Press.)
Genoa, April 21.—Russia agrees to recognize both the pre-war and war debts, including those of the Czarist and the Kerensky government, and to discuss property rights of foreigners within her border. In exchange for this she demands de jure recognition, and a loan.

This is the official reply of the Soviet delegation presented to the allies this afternoon.

The political commission of the Genoa conference, to whom this reply was sent, accepted it, as a "very hopeful basis for resumption of its discussions."

A committee of experts has been appointed to consider the Russian note. The reply stated very definitely that Russia would recognize the Czarist and Kerensky debts only upon the condition that the Soviet government was afforded the official recognition granted its predecessor. Unless Russia is officially accepted as a sovereign state, it cannot pay the debts, the note said.

One of the most important tentative concessions made was that concerning property rights in Russia. The Russian note suggested that this could be discussed by the political commission, and a basis worked out for mutual concessions.

The Russian reply, which was considered for over a week by the delegation, covered twenty typewritten pages.

General acceptance of the terms laid down by the allied experts at London covered the first half page of the note. The remainder of the document was argumentative.

The Russian reply says Russia will recognize her pre-war debt provided both debts and interest are "written down" and Russia is given immediate financial help.

Russia contends that her counter-claims should be recognized. Foreign financial help is absolutely essential to reconstruction of Russia. Without this help for reconstruction of Russia, then she cannot burden her people with debts which they cannot pay.

Indiana Will be Prom-
inent Politically for
the Next Few Days

(By United Press.)
Washington, April 21.—Politically, Indiana will become the center of the United States within the next few days. It will be that center until after Tuesday, May 2.

On that day occurs the primaries at which will be selected candidates on the republican and democratic tickets for the United States senate.

Harding administration officials from the president down will watch Indiana, and are listening for tidings with extraordinary interest. This is because Harry S. New, who is seeking re-nomination is politically the living personification of the Harding administration.

The issue is clean cut in Indiana because New is opposed by Albert J. Beveridge of a totally different type. Beveridge is a model progressive—that is, he is not what would be called a radical. Neither is he in New's conservative classification, for New is one of the old guard in the senate.

MAN WAS ROBBED
RIGHT AT HIS DOOR

(By United Press.)
Minneapolis, April 21.—Two foot-pads pursued A. G. Anderson to his door last night, and robbed him of \$4. The bandits accosted him three blocks from his home. He ran but was overtaken right at his door.

AUTO BANDITS STEAL
\$2,000.00 IN JEWELRY
FROM DISPLAY WINDOW

(By United Press.)
Chicago, April 21.—Automobile bandits escaped with jewels valued at \$2,000 taken from the display window of Roberts and Company, jewelers, within a few steps of Madison and State streets, the world's busiest corner, here today.

A heavily curtained car stopped in front of the store and a man jumped from the running board, threw a padded brick through the window, scooped up the jewels with both hands, and then dashed away.

STEAMER BREWSTER
SINKS AFTER COLLI-
SION; ONE MAN LOST

(By United Press.)
Richmond, Va., April 21.—The steamer Brewster went down with the loss of one of her crew following a collision with the Lake Sterling early today in the James river near Oldfields, 80 miles below Richmond.

THREE STATE BANKS
CLOSED THIS WEEK

(By United Press.)
St. Paul, April 21.—The state banking department today was continuing investigation of three banks closed this week.

The Western State bank closed in Minneapolis Wednesday, and the Security State bank at Shakopee, closed today. Previously, the State bank of Rosseau was closed.

The Shakopee bank was one of the chain of which E. L. Welch was interested. His grain brokerage firm is bankrupt. It was indicated today all banks controlled by him will be investigated.

WILL ASK MILLION
TO FIGHT FLOODS
ON MISSISSIPPIBY JOINT RESOLUTION OF CON-
GRESS—PRESIDENT GIVES
APPROVAL

(By United Press.)
Washington, April 21.—Immediate appropriation of one million dollars to fight the floods along the Mississippi river, will be asked in a joint resolution in the house today.

President Harding gave his approval to the relief measure when Senator Ransdell of Louisiana and Representatives Humphrey of Mississippi and Wilson of Indiana called at the White House and laid the plans before him. Director of the Budget Dawes also endorsed the plan.

Passed Within Hour
Washington, April 21.—Congress today came to the aid of the flood-stricken lowlands along the Mississippi river.

Within an hour after it reconvened, both houses passed an appropriation of \$1,000,000 immediately available for flood-stricken areas. President Harding's signature is expected late today or tomorrow.

BOLSHEVISTS SIGN A
TREATY WITH VATICAN

(By United Press.)
Rome, April 21.—Soviet representatives have signed a treaty with the Vatican permitting Jesuits, Franciscans and Catholic Sisterhoods to enter Russia and carry out additional work, it was authoritatively learned here today.

This was interpreted as the first move to bring the Orthodox Russian church into the Catholic church.

HARDING SIGNS
\$17,000,000 BILL
FOR MORE HOSPITALS

(By United Press.)
Washington, April 21.—President Harding today signed the bill authorizing appropriation of \$17,000,000 for building additional hospitals to care for disabled veterans of the world war.

CONFESSES MURDER
OF BEAUTIFUL GIRL;
IDENTITY UNKNOWNWHOSE BODY WAS FOUND IN
MOVING VAN IN SOUTH
CHICAGO

Chicago, April 21.—The nude body of a beautiful blonde woman was found in an old moving van on the south side here today. She was about 30 years of age. Her body was covered with bruises. The woman had been dead only a few hours.

A fresh blood stain on the door step of an apartment house just north of the vacant lot where the body was found, lead police to believe the murdered woman had been dragged out before daylight today.

Two squads of detectives were rushed to the scene, and a coroner summoned. The body was lying face downward.

Chicago, April 21.—Thomas Roach, 27, today confessed the brutal murder of an unidentified beautiful blond girl whose body was found in a moving van on the south side here this morning, according to William O'Connor, police lieutenant.

Roach, according to O'Connor, met the girl and took her to his apartment. "They quarreled," Roach was reported to have said.

"I took a gun and beat her with it. I saw she was dead so I carried her out and placed her body in the moving van."

Roach said he did not know the name of the girl. Police are trying to decipher two postcards from New Haven, Conn., which, it was believed, were addressed to her. Roach, according to O'Connor, lead police to a vacant lot where he threw the gun. The blood stained weapon was found. Roach is a street car conductor.

Following Roach's confession, police sought Russell Mosley who, according to O'Connor, was with Roach at the time of the crime. According to O'Connor, Roach implicated Mosley in the confession.

SOUTH AMERICA IS IN
HOT ARMAMENT RACEINCREASE OF BRAZILIAN ARMY
STARTS ARGENTINA AND CHILE
ON RUSH FOR GUNS

Buenos Aires, April 21.—With more unsettled boundary disputes than Europe has had at any time in the last 50 years, with more apparently irreconcilable aspirations than the big powers had previous to the World war, the South American republics are plunging into an armament race which already has spread distrust and suspicion. The French military mission's reorganization of the Brazilian army, giving it a war footing of 150,000 men, including 81 batteries of heavy artillery, hitherto unused in South America, has started Argentina and Chile planning how they can best increase their armaments and keep pace with Brazil.

Despite all their protestations of friendship, harmony and mutual regard, despite the much discussed A. B. C. alliance, Argentine, Brazil and Chile in reality constitute what might be called an armed fraternity in South America, each of them being over-armed to such an extent that it gives the lie to any verbal declarations of mutual affection.

Brazil has with one move reorganized its army under French supervision to such an extent that it not only puts Brazil far ahead of Argentina and Chile, but it gives Brazil strength far in excess of all other South American republics combined, including Chile.

Chile, although embarrassed by an acute financial crisis, is expected to follow the lead of its two neighbors. Chile already has one of the best prepared armies in South America and recently took the naval lead of the continent by the acquisition from Great Britain of the cruiser Almirante Latorre.

ANOTHER FIENDISH
MURDER OF WOMAN
OCCURS IN NEW YORK

(By United Press.)
New York, April 21.—Police today were without a tangible clue in the second fiendish murder of women to occur in New York the last two weeks.

Mrs. Elizabeth Dordowitzky was found slain and her body mangled almost beyond recognition last night in the coal bin of an apartment.

Nellie Carry was slain a few days ago by a "jack the ripper" and her nude body cast into a tenement hallway.

MAN RETURNS AFTER
THREE YEARS TO FIND
WIFE IS REMARRIEDSHOOT USURPER AND SERIOUSLY
WOUNDS HIM—IS CAPTURED
BY POLICE

(By United Press.)
St. Paul, April 21.—Louis Sokola returned after three years absence to find his wife married to another man. He shot the usurper and seriously wounded him. Sokola is held by police.

He left his wife when they were unable to agree, he told police. He hoped to find happiness on his return. Instead, he found Stanley Toczybylek had taken his place. His wife had obtained a divorce and married again.

When told of the state of affairs, Sokola left in a rage. Later he met Stanley Toczybylek in the street.

In a scuffle, he shot his opponent. Police captured him after a chase. He expressed regret that the wound was not fatal.

FLOOD CONDITIONS
IN INDIANA ARE
WORST IN YEARSREPORTS AT CHICAGO RED CROSS
HEADQUARTERS SHOWED
TODAYTHOUSANDS OF ACRES IN CROPS
ARE UNDER WATER; MANY
CITIES ARE INUNDATED

(By United Press.)
Chicago, April 21.—Flooded rivers, crumbled dykes, and overflowed farms and portions of towns in Illinois, Indiana and Iowa, were reported at Red Cross headquarters here today.

The swollen Wabash river spread over thousands of acres of crops after forcing out three levees in Illinois and Indiana.

Flood conditions in southern Indiana are the worst they have been for years. Thirty-five blocks are under water in Vincennes, Indiana.

Water rushed over 40,000 acres of farm land in McClure, Illinois. The Red Cross has provided for the four hundred homeless residents of Naples and rescued a half dozen families marooned in an attic at Dog Tooth Bend.

Breaking of the Hartwell Levee along a 23 mile front of the Illinois river near Callotton, flooded 30,000 acres of farm land.

Rising of the Mississippi river has flooded basements in Clinton, Iowa, and railway service between Clinton and Davenport has been abandoned.

Town Flooded When Levee Breaks
Vincennes, Ind., April 21.—Russellville, Ill., was flooded today when a levee holding back the Wabash river gave way. Homes in the little town of two hundred crumpled before the sweep of water. Every home had a boat tied at the back door step, and when warning sounded that the levee was giving way, the entire two hundred entered the boats and were carried down stream. At Vincennes, five miles down stream, they joined a colony of one thousand driven from their homes here when thirty-five city blocks were flooded.

ADVANCE IN PRICE
OF COAL CLAIMED

Pittsburgh, April 21.—Claims of an advance in the prices of bituminous coal were made today by Vice President P. T. Fagan of District 5, United Mine Workers of America.

Union inquiries, he said, revealed that slack coal, \$1.50 a ton before April 1, when the strike of miners started, now is quoted at \$3 and that screen coal, selling for \$2.25 prior to April 1, now is selling for \$5 a ton with little offered.

That civil authorities in Westmoreland county have been active in the last few days was shown when two sets of hearings were conducted in Greensburg and Yukon for miners charged with dynamiting a coal company house, and with cutting down wires and poles, and with trespassing on coal company property.

Two injunctions to stay union activities were granted in Somerset county, one a new order and the other a revival of an order never dissolved. In the first union officials are temporarily restrained from conducting meetings with miners on or near property of coal companies, while in the second, union organizers are restrained against interference with nonunion employees of four other companies, in the Hooverville region.

HUSBANDS ARE TO
BLAME FOR 75 PER
CENT OF DIVORCES

(By United Press.)
Washington, April 21.—Husbands are to blame for seventy-five per cent of American divorces, Representative George Codd of Michigan believes. He thinks congress ought to prevent hasty marriages by passing a law requiring a ten days' wait between the issuance of the license and the marriage ceremony.

3,000 RESIDENTS OF
MONASTAR HOMELESS
AS EXPLOSION RESULT

(By United Press.)
London, April 21.—3,000 residents of Monastar and vicinity are reported homeless today as a result of the terrific explosion of a munitions train which caused the death to hundreds of soldiers, and many children.

The explosion at first was reported to have occurred at Salonika. Later dispatches from Belgrade showed it took place along the railroad running into Monastar.

Part of the city still is burning, and owing to danger from shells and explosives, thousands of inhabitants have sought refuge in the woods.

N. D. GOVERNOR
WILL DISCUSS HIS
STATE IN ADDRESS

(By United Press.)
St. Paul, April 21.—"North Dakota today" will be the topic of an address to be given by Governor R. A. Nestos, of North Dakota, at an open forum of the St. Paul Association next Wednesday.

RURAL MAILCARRIERS
TO GATHER CROP DATA

Washington, April 21.—Utilization of the services of rural letter carriers for gathering crop data and other agricultural statistics was authorized today by Postmaster General Work. "The postoffice department realizes," the postmaster general said, "that the services the rural carriers could render would be of tremendous value to agricultural interests of the country."

WHITE SLAVER GANG
ACTIVE IN KIDNAP-
ING YOUNG GIRLSTHIRD CASE WITHIN A WEEK RE-
PORTED IN NEW YORK
CITY

(By United Press.)
New York, April 21.—The third kidnapping of young girls within a week came to light today.

Warnings have been sent out of wide spread operations of gangs of white slavers.

Minnie Zareinbock, 16, who was rescued from a gang who had kept her without a vestige of clothing, plying her with drugs for ten days, told police she had been kidnapped while on an errand, by a man who dragged her into a taxi cab. Her captor, who said he was William Wessinger, who was in bed when police broke into the den, seized a revolver, but was knocked senseless by police and overpowered.

Less than a week ago a Chicago girl was taken by five men to a house and kept prisoner for two days, and since that time another girl was dragged in a hallway by five men. She escaped.

Police believe that a gang of kidnapers which took the young girls and plied them with drugs and boot-leg liquor, is operating.

Carried Counterfeit
Money Just for Fun

(By United Press.)
If President Harding or Josephus Daniels or W. J. Bryan could only see the plight of Colonel Louis H. Harris of Philadelphia, they would quickly come to the rescue, the "colonel" told United States Commissioner Edward Abbott.

The latter ordered him held at \$10,000 bail for having in his possession \$25,500 in counterfeit treasury and federal reserve notes.

"I only carried them for fun," said Harris when arrested by secret service men. The notes were very poor photographic reproductions.

He said he was former secretary of W. J. Bryan, a dollar a day man in Washington during the war, and was a personal friend of Daniels and the president.

IRISH REBEL TROOPS
STORM WELLINGTON
BARRACKS IN DUBLINARE BEATEN OFF BY FREE STATE
FORCES—SEVERAL ARE
WOUNDEDBELFAST HAS WORST NIGHT OF
TERROR FOR MANY
MONTHS

(By United Press.)
Dublin, April 21.—Wellington barracks were stormed by rebel troops during the night. The attack was beaten off with casualties on both sides. Machine gun volleys were showered into the barracks, which was garrisoned by Free State troops.

Rifle fire from neighboring houses was directed at the encampment. Insurgents then rushed to the front gate of the barracks, hurling hand grenades as they reached it. The Free State defense returned the attack with other hand grenades. Two of the attackers and three Free State men were wounded.

The roar of bombs and constant volleys drove residents of the neighborhood into a state of panic.

The assault lasted for over an hour. The delay in the peace negotiations between Collins and De Valera was believed to have encouraged the rebels.

Wild Disorders in Belfast

Belfast, April 21.—Hundreds of gunmen participated in street battles during the worst night of terror Belfast has known for months.

Fighting last night and early today was particularly severe. Gangsters came boldly into the streets and were shot down by rifle bands from roofs. Seventeen persons were wounded. A panic among civilians in the district resulted.

Police and military men in the Marrowbone district where fighting broke out early today used dynamite to destroy snipers posts.

Rebels Capture Wireless Station

Dublin, April 21.—Irish republican rebels have captured the British wireless station at Bunbeg in Donegal in the north of Ireland, according to a report from Londonderry today.

The British naval men operating the wireless station were reported to have been ejected.

FARMER'S WIFE IS
BURNED TO DEATH

(By United Press.)
Kansas City, April 21.—Mrs. Katherine Enon, 23, a farmer's wife, near Nelson, Mo., allowed herself to burn to death today rather than endanger the lives of her two children with her flaming clothing.

Her clothing ignited from the stove. Just before she died from fatal burns received, she told her husband she ran to another room to get a blanket to smother the flames, but was afraid to take it from the bed where their two children were sleeping.

CLEAR WAY FOR
THE BONUS BILL

(By United Press.)
Washington, April 21.—The republican tariff bill will be the one to clear the way for the soldier bonus bill, Senator McCumber, chairman of the senate finance committee, announced today.

McCumber expected to get the committee at work on the bonus bill today.

Flood Waters Set Record

New Orleans, April 21.—The Mississippi river passed the highest stage ever recorded here today when the local gauge registered 22.1 feet, one-tenth of a foot higher than the previous high record established in 1912. According to the weather bureau, the river will continue to rise until a stage of 23 feet is reached about May 10.

THE WEATHER

It Takes a Few Years

for a young man to establish credit.

He proves his ability to keep his capital growing. He usually begins by saving part of his income, and later by steadily increasing his farm or business property.

He builds a banked reserve. He wins a reputation for keeping his bills paid, and for becoming ever more valuable in his work.

These are the main factors by which young men build bank accounts.

FIRST NATIONAL BANK
BRAINERD
"SAFETY AND SERVICE"

TRAVELS ALONE 1,600 MILES
IN SOUTH AMERICAN WILDS

Dr. Henry H. Rusby, dean of the college of pharmacy at Columbia university, is recuperating at his home in Newark, N. J., after a perilous and gruelling trip as any man ever experienced. Last June Doctor Rusby headed the Mulford biological expedition in search of new vegetable growths of possible medicinal value in the wilds of South America.

At Rurrenabaque, Bolivia, he was stricken with neuritis, which crippled his left leg so badly that he could hardly travel along, an infected tooth causing him intense agony at the same time.

And so, alone, he started for Manaus, 1,600 miles away on the Amazon—and Manaus is 1,000 miles from the Atlantic coast mouth of the Amazon.

Incidentally, and lest it be forgotten, Doctor Rusby was the first man ever to carry the American flag across the continent of South America, traveling from the Atlantic to the Pacific aboard, on muleback, and on rafts, back in 1885.

Program Given in Full, 89 Families are Represented in the School Plays

PROCEEDS TO BUY SCHOOL PIANO

Marion B. Opsahl, Director—Given by Grade and High Schools at Park Theater April 24

Seats will be reserved Saturday morning, beginning at 9 o'clock, at the office of the New Park theatre, for the musical entertainment given by the grade school and high school students Monday, April 24. So as to insure the best of service, there will be numbers given out, and those who come first have first choice of seats. Only a limited number of reservations may be made by each person.

The personnel of orchestra and chorus and the cast of characters represent 89 families of Brainerd, and is one of the most representative gatherings of its kind ever assembled. Everyone is sure to know someone who is on the program.

The proceeds of the entertainment will be used toward the purchase of a portable piano for school purposes. Brainerd is one of the few cities without one or more of this practical type of piano.

The following is the program in full. It is directed by Marion B. Opsahl.

Selections by High School Orchestra
Semper Fidelis Sousa
William Tell Overture Tchaikovsky
Dance Fantastique Reynard
Japanese Sunset Zamecnik
Tulips Miles
First violins—Kenneth Bracker,
Georgia Drexler, Irene Evans,
Loneta Hayes, Geraldine Kiehl,
Ruth McCall, Gordon McPherson
and Cielie Morrison.
Cornets—Lester Clark and Harold
McCall.
Cello—Grace McCall.
Drums—LeRoy Putz.
Piano—Alice G. Johnson.

CANTATA

"The Gardens of Flowers"
Given by the Schumann Chorus
Opening Chorus "The Morn"
Schumann Chorus
Duet "The Lark and the
Nightingale"
Georgia Drexler and Myrtle Haake
Sextette "White Butterfly"
Georgia Drexler, Cecile Morrison,
Myrtle Haake, Astrid Olsen, Marguerite
Peterson, Florence Newman
Alto Solo "Lovely Rosebuds"
Myrtle Haake
Chorus "Summer Breezes"
Soprano solo and chorus "The Bees"

Lois Chadbourne and Schuman Chorus

Mezzo Soprano Solo "O Happy Streamlet"
Georgia Drexler
Double Quartet "Goodnight"
Georgia Drexler, Astrid Olsen, Cecile Morrison, Marguerite Peterson, Myrtle Haake, Florence Newman, Lucille Nolan and Therese Emilson
Chorus "The Garden of Flowers"
Schumann Chorus, Elizabeth Johnstone at the Piano

OPERETTA

"Snow White"
Cast of Characters
Queen Mother Mary Drewry
Snow Fairy Godmother Helen Marie Stadbauer

Snow White Alice Regina Johnson
Wicked Queen Lois Chadbourne
Wicked Queen, disguised Florence Newman
Chief Huntsman Harold Canfield
Dwarfs—Roland Bentley, Iowa Bickie, Howard Clark, Henry Hanson, Roland Jenkins, Carl Nelson and Dale Sanders.
Prince Harold Canfield
Servant Thomas Olverson
Attendants Leland Avery, Marcus Seeger

Fairies—Mary Hoffman, Dorothy Moore, Mae McQuillin, Dorothy June Opsahl, Virginia Rickie, Lucille Russell, Lois Adelaide Thabes, Eleanor Valerius.
Huntsmen—Ralph Anderson, Donald Bispham, John Ellison, William Gales, Kenneth Hoorn, Orris Larson, Edward Olsen, William Rodenkirchen and James Smith.

Story of Snow White

The Queen Mother dies soon after the birth of Snow White. The new queen is very wicked and plots the death of her stepdaughter, because Snow White is more beautiful than the jealous queen. The Chief Huntsman, who is ordered to take Snow White into the woods and kill her, spares her life and leaves her in the forest. Snow White meets a group of dwarfs and becomes their housekeeper.

The Wicked Queen, informed by the mirror that Snow White still lives, is mad with envy and finally succeeds in accomplishing the death of the princess. Some time afterwards, the Prince comes by the dwarfs' home. All ends well.

Tickets

People who have not yet secured tickets are urged to do so at once. Seats are reserved tomorrow. The program is to be given Monday, April 24, 8 p. m. at the New Park theater. There is a matinee for children at 4 o'clock.

Charcoal Eph's Philosophy.

"I ain't got no use for a whining man," said Charcoal Eph, in a ruminative mood. "De Lawd made man for 't flight an' cuss, an' woman for weepin' an' lamentin'. Eat a prune, Mistah Jackson."—Richmond Times-Dispatch.

CHURCH GROWS AS COMMUNITY CENTER

Peoples Congregational Church Can Fill that Position, aid Rev. E. C. Ford of Wadena

ILLUSTRATED LECTURE GIVEN

Rev. E. L. Richardson of Backus Sang a Number of Songs, Gathering Held Wednesday

The belated snow storm of Wednesday evening did not deter many people from attending the meeting in Peoples Congregational church.

This meeting was one of a series which Rev. J. E. Cadwell has arranged to promote community interest. In the two earlier gatherings, Rev. Everett Leshner, D. D., and Rev. A. K. Voss, State and District Superintendents of the Congregation church in Minnesota, were the speakers at the first, and George W. Lawson, Secretary of the State Federation of Labor, was the speaker at the second.

On Wednesday evening, Rev. E. C. Ford of Wadena, who has made a thorough study of community interests and the educational, social and other factors which go into the making of a worth while community, gave a most able talk which was illustrated by many beautiful views showing the methods of developing the community spirit. Mr. Ford put the church in the first place as the center from which there should flow that spirit which makes for the welfare of the community life. He pointed out that in his opinion, the People's Congregational church is so located that its service to the community is only limited by the vision of its constituents, and the speaker emphasized the thought that Rev. J. E. Cadwell has a real social vision which with the co-operation of his

Laughing in His Sleeve

"I was told nothing but an operation would help my stomach trouble, and was getting ready for the operation when a friend advised me to try Mayr's Wonderful Remedy. The first dose helped me. I am now as well as ever in my life, and am laughing up my sleeve at the doctors." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does not convince or money refunded. Johnson's Pharmacy and leading druggists. Adv.

people, will lead to real community service.

Rev. B. L. Richardson of Backus sang a number of songs and responded to an encore. Mr. Richardson's unassuming attitude soon won the appreciation of the audience which enjoyed his contributions to the program.

Those who attended the meeting left with the feeling that their evening had been well spent.

LAST NUMBER OPERA COURSE

For Student Members of Brainerd Musical Club Given at Home of Miss Elizabeth Johnstone

The last number of the opera course for the student members of the Musical club was held Wednesday evening at the home of Miss Elizabeth Johnstone.

The opera was "Aida". A splendidly clear, understandable reading of libretto was given by Mrs. J. A. Thabes. Her description of the stage settings was particularly lucid, enabling the audience to picture the pomp and trappings of royalty in the days of Egypt's glory.

Her description of the royal reception of the great chieftain who had conquered the Ethiopians was enhanced by the blare of trumpets and bugle calls in the military march, which was played on the Victrola.

The illustrations of the opera were given by Dr. I. G. Badeaux and Mrs. Mal Clark. Without these two faithful soloists, this course would scarcely have been possible. Few people realize what a difficult task it is to work up these operas and Mrs. Clark has been handicapped by a weakened physical condition, following the flu. However this did not show in her voice, as she sang "See My Rival Detested", with the power and distance of a real rival.

Dr. Badeaux put equally fine feeling, as well as a beautifully tender voice quality into "Celeste Aida".

Mrs. W. A. Erickson and Mrs. Walter F. Wieland, who have had charge of this course, are to be congratulated. It has taken hours of planning and many hours of work at the piano to bring it to such a successful conclusion. They have thought best to postpone the two Wagner operas that were to have concluded the course, and open with them next fall.

Baptist Women Undaunted by Big Task

To Raise \$2,000,000 for Home and Foreign Mission Work.

Northern Baptist women throughout the United States are today engaged in one of the largest money-raising efforts ever entered upon by women alone. During March and April they will carry on a campaign for \$2,000,000, for the work of the fiscal year, on home and foreign fields.

"This is woman's work, as well as man's, and our women will do it," declared Mrs. George W. Coleman, of Boston, Mass., President of the Woman's American Baptist Home Mission Society, and a member of the national committee of the Women's Continuation Campaign.

"Women today have extended their horizons to take in the needs of the world," said Mrs. Martha MacLeish, President of the Woman's American Baptist Foreign Mission Society, also on the campaign committee of ten members. "The day has gone when women could feel that they had done their part if they served as the family church-goers. Now women are church-goers, as well as church-goers."

"Northern Baptist women will do their share in the crisis that confronts the denomination," stated Mrs. Helen Barrett Montgomery, President of the Northern Baptist Convention. "It will take a miracle for our women to raise \$2,000,000 in so short a time. But miracles can be accomplished through faith, and we have chosen, 'Have faith in God' as our slogan."

Although the Women's Continuation Campaign is a part of the general denominational campaign for \$15,000,000 during March and April, the women have their own campaign organization, and will raise their \$2,000,000 entirely by their own effort, and through their own sacrifices. They set their own quota, and proffered their services to Dr. John Y. Aitchison, General Director of the General Board of Promotion of the Northern Baptist Convention. Northern Baptist women are accustomed to take an unusually active part in the work of the denomination. No other great religious body has ever chosen a woman for its president. One-third of the members of the Administrative Committee of the General Board of Promotion are women, and there are a number of women pastors in the Northern Baptist Convention field.

Many ingenious plans for swelling the women's fund are being put into effect in the various states. In Iowa, where the women's quota is \$75,000 and where there is a large farm population, women are asked to give all the eggs laid on every Sunday during March and April to the campaign. In Illinois, where the quota is \$171,750, women are giving memory gifts, as memorials to parents, husbands, children, or other relatives. The women of Kansas are putting their campaign play "Sloville Over the Top," to help secure their \$80,000 quota.

The quotas assigned to the various districts, and the district campaign directors are as follows:

Atlantic District, \$300,000, Mrs. George H. Swift, of Woodbury, N. J.; New York District, \$333,333.33, Mrs. Orrin R. Judd, of Brooklyn; Central District, \$250,000, Mrs. John Niven, of Chicago; West Central District, \$200,000, Mrs. F. L. Miner, of Des Moines; East Central District, \$300,000, Mrs. R. L. Hutchinson, of Huntington, W. Va.

New England District, \$266,666.67, Mrs. Everett C. Herrick, of Fall River; Columbia River District, \$66,666.67, Mrs. V. J. Didrickson, of Seattle; Northwestern District, \$122,666.67, Mrs. D. D. Smith, of St. Paul; Rocky Mountain District, \$36,666.67, Mrs. F. L. Smith, of Denver; South Pacific District, \$124,000.00, Mrs. A. W. Rider, of Los Angeles.

PROPAGANDA IN SCHOOL BOOKS

THE FOLLOWING extraordinary statement appears in a school history now used in the High schools of Washington City, our national capital:

"A clique of Wall Street bankers practically managed the country during Grant's presidency; and ever since that time the great capitalists who have financed our railroads, our mines, our oil fields, our steel mills, and our packing houses have expected and received from Congress favors and immunities which have made them fabulously rich and bred in many of them the belief that government exists primarily for the purpose of protecting and increasing their private wealth. Corruption, bribery, and graft are the inevitable results of the undue influence of money in politics."

This is the same history, by the way, that belittles the Continental army of the American Revolution, slurs Washington and other American patriots, and teaches Socialism and Radicalism generally. Of course such an assertion as here quoted has no place in any school text book, least of all in a history of the United States. It is a direct charge that Congress is and has been for 50 years under the control of big money interests, and therefore subject to "corruption, bribery and graft." Such a charge is an audacious falsehood.

Every member of the House of Representatives is elected by a majority of the voters in his district of more than 200,000 people, and every Senator by a majority of the voters in his state. Therefore it is to the interest of every member of Congress to do what his people want him to do. It follows that practically every vote cast in the Senate and House is the member's interpretation of the wishes of his constituents. If the votes have sometimes seemed to favor the capitalists, and at other times labor influences, and at still other times the interest of agriculturists, it is because the people back home approve of that course. The government at Washington is a government by the people through their representatives. That is what the fathers of the country intended it should be.

If you trace to its source every charge that Congress is improperly influenced by capital or anything else, you will find that it originates in the mind of a radical, who would probably like to see our form of government discarded and one more to his own revolutionary liking set up.

THE TONNAGE TAX INJUNCTION

THE ARGUMENTS in the matter of the petition of a number of Northern Minnesota mining companies, for a permanent injunction restraining the state from making collections under the new occupation or iron ore tonnage tax law passed by the last Legislature, will be heard in the United States District Court in St. Paul on Monday next, 24th inst. The hearing was to have taken place April 10, but was postponed to April 24. A temporary injunction has already been granted.

The tonnage tax question, which involves millions of dollars and affects a leading industry in the northern part of the state, is a very important one to all residents in this section, and the result will be awaited with keen interest. However, it is probable that whatever the findings of the court may be, the case may be carried to the Supreme Court before it is finally settled.

In order to make the way clear for the next Legislature, should the law fail in the courts, a constitutional amendment permitting a tax on the occupation of iron ore was enacted and will be submitted to the voters at the general election in November next. The proposition is now before the courts and it is hoped that it will end there.

NECESSARY FOR NATIONAL DEFENSE

WE BELIEVE no man in the country is more strongly opposed to war than President Harding, and no man is less likely to let us drift into war. When, therefore, after careful investigation, he gives Congress his opinion as to the minimum figures under existing conditions necessary to the national defense, he should be given every man and every dollar that he asks for.

The neglect of previous Congresses to provide reasonably for contingencies has cost this country billions of dollars and thousands of lives. For the present Congress to refuse to make it possible to adequately train our reduced navy by practice is to provide for the destruction of both ships and sailors by the enemy if war does come. To refuse to appropriate the moderate sums necessary to maintain for some years an adequate staff of officers, such an enlisted force as the President deems necessary in any emergency, and summer training of a small force of civilian reserves, is to needlessly endanger the life of the nation. The President's recommendation is upon greater responsibility than rests upon Congress, and he is better informed than Congress can possibly be.

BIG SAVING FOR FARMERS

FIGURES just made public by the State Board of Control show that the industries of the state's prison at Stillwater have sold to the farmers of the Northwest products totaling more than \$41,000,000. It is estimated that the saving to farmers in lower costs of binding twine and farm machinery is \$10,000,000, without counting the effect on prices of competing products also sold in this territory. The binding twine industry began in 1890, and in 1908 the manufacture of farm machinery began.

IT IS quite apparent from Woodrow Wilson's repudiation of Jo Tumulty's "message," that the former president has thrown Jimmy Cox overboard. Now, if Jimmy is cute enough to repudiate Wilson—well, he'd at least get more votes if he is a candidate again in 1924, than he did when he "also ran" in 1920.

ONE WALTHER ANDERSON, of Rosseau county, who is said to have hitherto been an active Republican, has filed for the Democratic nomination for Governor.

HOARDS INCREASED IN VALUE

Austrian Peasants Who Buried Coins
Are Now Worth Enormous
Sums, on Paper.

Thousands of central and eastern European peasants, following a time-honored custom, buried their silver coins against a rainy day. These silver coins, writes Joseph Schenkel in the Atlantic, naturally retained their former value. But the hoarding was done on such an extensive scale that, as early as 1918, all silver coins had disappeared from circulation in Germany, Austria-Hungary, Jugo-Slavia, Rumania and Poland.

Today a peasant who buried 100,000 pieces is a millionaire; he can exchange the 500 kronen in silver for 1,000,000 kronen in paper money.

In Austria-Hungary alone there had been in circulation something like 200,000,000 kronen worth of silver money before the war. It would take Austria the enormous sum of 200,000,000,000 kronen to buy up her half of this hoarded silver currency.

The fact of being a millionaire in those countries does not mean anything. Such a million is a million in figures, but not in value; and when such a million is converted into a sound currency, the shrinkage is fabulous. But the purchasing power of the depreciated currencies of central Europe has not gone down quite in proportion with the decrease of their exchange value. One million Austrian kronen, which were worth before the war almost \$200,000, are worth today not quite \$120; but their purchasing value in Austria is considerably more than that.

"YANKEE DOODLE" HIS CHOICE

Britain Decidedly of Opinion That It
Should Have Been Selected as
the National Anthem.

America has missed her chance in the way of national anthems. She, I understand, repudiates "Yankee Doodle" for "Hail Columbia" or "The Star-Spangled Banner"; she must be solemn about herself like all the rest of us; but what a lesson she would have taught us, what an artistic success she might have been in every allegorical parade of the nations, if she had stuck to "Yankee Doodle."

I do not know what the words mean; but they sound gay and they

BREAK CHEST
COLDS WITH
RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."

in the time, which is not of the best tunes of its kind in the world. I do not know who composed that tune, or when, or where, but it sounds as if it had grown to express the right spirit of a nation about itself and to make fun of all the other solemn tunes which express the wrong spirit. For how gay and funny and brave it is; and how it enjoys itself; how it sets the mind dancing so that the feet are almost forced to dance too.

A musician could do anything with it; orchestrate it with drums and trumpets and triangles, slow and quicken it, make variations on it, set it jumping and swaying and turning head-over heels and finally stop breathless with a crash, for the cheers that would certainly follow.—A. Clutton-Brock, in the New Republic.

Nash Leads the World in Motor Car Value

THAT leadership which Nash cars are assuming everywhere throughout the country in their respective classes can be seen reflected nowhere more clearly and unmistakably than in the figures for the annual sale of motor cars by all manufacturers.

But a scant five years ago Nash stood 24th in volume of business yearly. Now Nash is in 8th place and that in itself speaks weightily as to the quality and value embodied in the fours and sixes that bear the Nash emblem on the radiator.

HENRY KARHUNSAARI

Fresh from the scene of many Dakota triumphs Henry Karhunaari, the redoubtable Finn, arrived in Brainerd last night and is on his toes for the big wrestling match tonight with L. C. Curtiss, Bemidji grappler. Both are reported in the pink of condition and Pete Smracker says a good mat battle is assured all fans.

It will be held at the Gardner auditorium tonight. The Karhunaari-Curtiss match will take place immediately after the Knights of Columbus Athletic Carnival has concluded, thus giving the fans a chance to see both events. The preliminary at Gardner hall will be a wrestling bout between Ray Narveson and "Blackie" Clark.

SAD FATE OF HENRY JASON

Abject Condition of Henpecked Husband, Example of the Loss of Personal Property.

Henry Jason, the noted henpecked husband, is another example of what the loss of personal liberty can do to a man. When the fathers of our constitution passed the law relating to matrimony they forever put the shackles on Henry Jason. Henry's zero hour came when Portia Strong led him to the altar and the justice of the peace tied the fatal knot. He has tasted no nectars of liberty since. Bert Walker writes in the Topeka Capital. But Henry has not the strong and forceful character of Old Bill Shiftless, so he submits without a whimper. He tried whimpering once and it put him in a hospital for two weeks. One day when Portia was away attending a meeting of the Advanced Thought club, which was very busy emancipating women, a long-haired leader left a pamphlet at the Jason kitchen door. Henry stopped long enough to read the front page. The first line read: "It is high time to administer a rebuke and to check the forces which are trying to overthrow our constitutional immunities and liberties." Just then Henry heard a step on the front porch. He thought it was Portia. He was at once stricken with palsy and fell in a dead faint. It was two hours before he came to and was able to burn the pamphlet. He was still shaking like an aspen leaf when Portia returned at midnight. Had Henry Jason not been deprived of his personal liberty when a young man his name would have gone down on the pages of history alongside those of John L. Sullivan and Jack Dempsey.

HELPED IN GOING THROUGH

Motorists Got to Their Destination, but "Papa" Had Had a Lot to Do With It.

A party of tourists was attempting to reach Pendleton on the Pendleton pike between Indianapolis and Pendleton when one of those things that happen to motorists so frequently on country roads happened. It was the day after a heavy rain and the ground was thawing rapidly when this party descended "hub-deep" in good, old Hoosier mud. Through some trick of luck, assisted by elbow grease, the automobile was rescued from the mud hole and the party about-faced to inquire at the nearest farmhouse of another route to Pendleton.

A small country boy came to the door and seemed very reluctant to give information as to the condition of other roads leading to Pendleton. "Have any other machines been going through on this road?" the boy was asked.

"Sure, they all have been going through. Papa's been takin' 'em through for \$4 apiece. You guys is the first customers we have lost," replied the boy with a deep frown.

A look around disclosed that papa too was disheartened at the good luck of the motorists in getting out on their own power, because he had his team hitched up ready to increase his mud-hole income for the week.

Long Cross-Country Mink. Further Time is the only spectator at this celestial sporting event, but he must find it a thrilling one. In a 40,000-year voyage from the stars to the earth, pulses of blue and yellow light run a neck-and-neck race, according to a bulletin issued by the Harvard College observatory. Traveling 180,000 miles a second, the two kinds of light do not differ in velocity as much as an inch a second, the bulletin says. In the entire journey neither gains as much as two minutes.

This conclusion has been reached by study of faint variable stars in remote clusters, one of the brightest and nearest of which is designated Messier 5. The distance from the earth of this ball-shaped swarm of thousands of giant stars, just calculated by Harvard astronomers, is announced as 122 kiloparsecs or nearly 40,000 light years—a cross-country hike of more than two hundred thousand trillion miles.

Earl Has to Feed Stock. The earl of Fingall and his family are engaged in caring for their stock themselves, being in those troubles.

At Killeen castle, which dates from the year 1100, efforts to organize a union made the employees quit working, wherefore the Countess Fingall goes out to cut the turnips, while the earl and his son, Lord Killeen, feed the stock, which, being of the choicest breeds, requires the most regular kind of attention. The pigs get one feeding daily, and horses two and the cattle in stalls three.—London Mail.

Standard Scale Shortened.

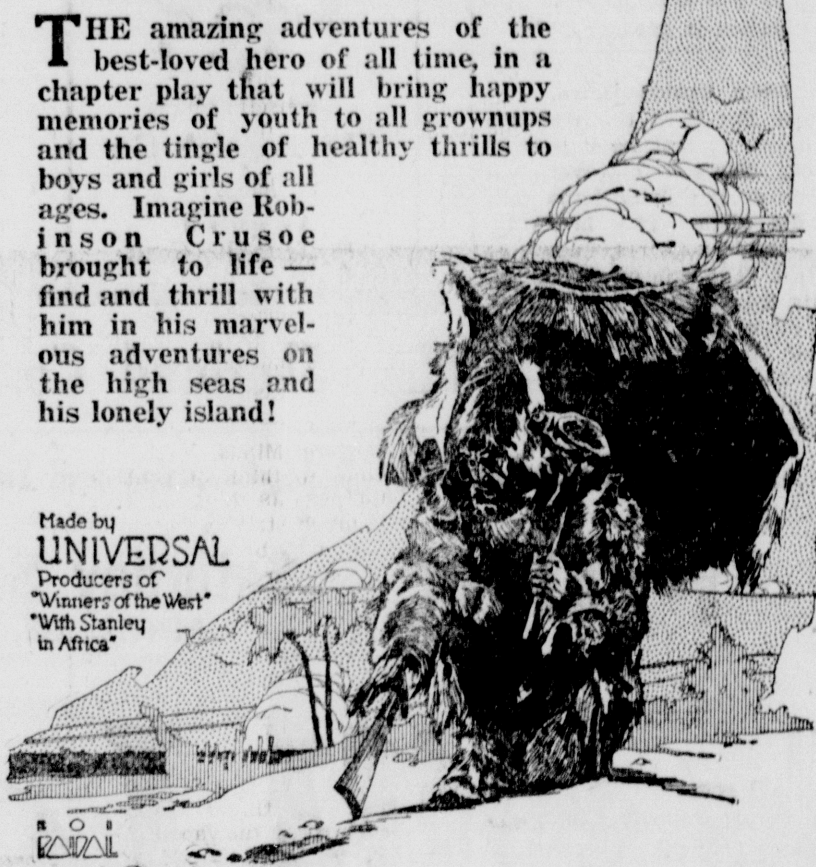

In 1899 20 nations decided to take their standard of length from a platinum scale; now France, the jealous guardian of this piece of metal, is alarmed to find that it has lengthened by a demimicron, or five-millionths of a meter, says the Scientific American. The only explanation available is that the annual cleaning of the bar may have been responsible for displacing the platinum molecules. It will be carefully watched for the next ten years and the cleaning may have to be abandoned.

You can't fool the youngsters. They can always tell the difference between KELLOGG'S and imitations.

Kellogg's Corn Flakes snap up fussy appetites something wonderful!

No coaxing needed to tempt family folks and visitor folks to eat a-plenty—not when there's a big pitcher of milk or cream and lots of Kellogg's Corn Flakes—and, maybe some fruit—ready to tickle fickle palates!

Kellogg's are unlike any corn flakes you ever ate! They're the original kind—they ought to be best! No other corn flakes are so deliciously flavored; no other corn flakes retain such wonder-crispness till eaten! And Kellogg's are never leathery or tough or hard to eat!

Kellogg's are always a delight to serve—and a treat to eat at any meal! In fact, you'll never know how good corn flakes can be until you know KELLOGG'S!

Do more than ask for corn flakes—say KELLOGG'S CORN FLAKES! The kind in the RED and GREEN package!

BREAKS up FEVER

A chiropractor would rather get a fever case than anything else. Why? Because it is a common thing for fevers to break up after one or two adjustments have been given. Fever is excessive heat brought about by certain subluxations; as soon as the subluxations are adjusted and Nature can work normally again, the fever disappears. See your chiropractor. Consultations and spinal analysis Free.

THIS YOUTH NO PLAGIARIST

Schoolboy's Composition on "Lamb" That Is Certainly Nothing If Not Strictly Original.

The teacher, with a class of fourth-grade boys, considers her profession anything but boring. "Few would be bored if they could look over the compositions my children turn in," she confided to the Woman. She invited her to glance over a certain choice piece of literature; the "thesis," as she calls it, follows:

"Story on Lamb—
"Lamb is a noun and its a common one, to, only when it gets tough its mutton. I don't like it then because its harder to chew. When its alive before its killed and sent to the boochers its called a sheep because its an old lamb. It eats a lot of grass and when you by it in the boochers you must know the different parts because some are fat and some are skinny. You always must cook them because you can't eat them raw. They take the wool off the lambs back and wash it because it is always dirty and then they put it in ink to make it black and then make stockings and suits out of it. I have a blue suit and I guess they put it in bluing to make it that way. That's all I know about lambs."—Chicago Journal.

Voice Carried 5,500 Miles.

By means of the transcontinental telephone line a connection was extended to San Francisco and thence south to Los Angeles, where, by means of a radio telephone connection, the circuit was extended to Catalina Island, thirty miles distant in the Pacific. Satisfactory conversation was thus carried on between Catalina and Cuba, a distance of something over 5,500 miles. This is the greatest distance

over which commercial telephone service has thus far been established.

The Cuba cables are the longest deep sea telephone cables in use, and embody in practical form a number of the recent scientific developments. To provide for the traffic expected three of these cables were successfully laid. Each cable is capable of carrying simultaneously one telephone conversation and eight telegraph messages.

No Backache for the Healthy.

That lumbago, sciatica and other forms of backache are to be regarded as reflex neuralgias, like that due to decayed teeth, is a theory advanced by Dr. Folke Lindstedt of Stockholm, as the result of examinations of 1,578 recruits for the Swedish army. Out of the total number, 1,578,117, or 7.4 per cent, had suffered from lumbago, sciatica or backache. Among those with "serious morbid conditions," the number who had suffered from lumbago was 24.5 per cent; among those with minor ailments, the number was 6.1 per cent, and among the perfectly healthy it was only 1.7 per cent. In the case of sciatica, 3.46 per cent of those with serious morbid conditions had suffered, and only 0.12 per cent of the healthy recruits.

Seemed to Be Something Wrong.

Kenneth's mother had been to the hospital and Kenneth was waiting impatiently for her return. The day of her homecoming he took a chair up to the window and watched every auto pass with his little nose flattened against the window pane. Suddenly an auto pulled up, his mother looked out and waved, and Kenneth dashed madly out to the steps to greet her. Mother was overjoyed at seeing him, she began to cry, and Kenneth looked at her and said: "Ooh, mother dear, ain't you all well yet?"

THE GOLDEN RULE

709-11 Laurel St. Brainerd, Minn.

The Audience Smiled.

I introduced the speaker of the evening to a large audience, and sat down behind him on the platform.

In the course of his address, wishing to illustrate a point, he said, "You remember, don't you, a few years ago when J. D. Rockabill had to have an operation for appendicitis he had a first year medical student perform his operation?"

He turned and, seeming to speak almost directly to me, he asked, "didn't he?"

Not wishing to appear uninformed upon a question that I was so manifestly expected to know, I nodded genially and said quite distinctly, "Yes, I remember."

Imagine my chagrin when the speaker turned to his audience, apparently without having heard me, and said: "No, of course, he did not. He employed the best surgeon in the country."—Chicago Tribune.

Drainage of Zuyder Zee.

At the inland shipping congress held at Rotterdam recently the drainage of the Zuyder zee formed the most important subject of discussion. It was pointed out that the drainage would make necessary the construction of a number of new canals. One speaker pleaded that the building of new villages and factories near the polders should not be left to mere chance. Villages with churches should be built near the canals, but industrial works near the dykes. Such an arrangement would prove of advantage to shipping and would prevent any pollution of the polder water. A number of the waterways connecting the Zuyder zee ports are to be preserved, but wherever polders form a continuation of the existing land, new harbors will have to be made.—Scientific American.

A Family of Organists.

Edwin H. Lemare, the municipal organist of Portland, Me., declared a while ago that he believed his father, Edwin Lemare, of Ventnor, Isle of Wight, having played in one church for 60 years, held a world's record. Mr. Lemare said that he took his first lessons in organ playing from his father. Later he went to London and attended the Royal Academy of Music, becoming John Goss, scholar. He also served for a short time as professor at that institution. Speaking of music in the family, he noted that his grandfather, Frederick Lemare, used to play the organ in a London church, and that his uncles on his father's side were all musical.

Scene from "FOOLISH WIVES" A UNIVERSAL SUPER JEWEL PICTURE

U. S. Cruiser Used in "Foolish Wives" or, Von Stroheim was filming the arrival of the American Envoy at the court of Monaco. Moreover, the captain of the Salem was complaisant enough to play the same part in the picture, with the officers and personnel of the ship supporting him, while the Guard of Honor for the fictitious American Ambassador was made up of U. S. Marines who accompanied President Wilson on his tours. So no real Minister Plenipotentiary and Ambassador Extraordinary of this or any other company was ever landed at his port of destination in greater style.

Disarmament was not then projected, otherwise the company might have bought a "scrapped" cruiser cheap; but it was Laemmle luck that the U. S. S. Salem should put into San Pedro, the port of Los Angeles, just as Direct-

Fine Paper From Truck Patch.
Swiss chard is a vegetable which is not very highly esteemed though it has a great deal to recommend it. It grows profusely in almost any part of this country wherever planted. It has been recently discovered by some experiments in a sugar mill at Yakima, Wash., that the stalks and leaves of this plant are capable of making a very superior paper resembling the parchment made by the Japanese.

Fish Swim Upside Down.

The human has it on the vast majority of fishes, in that he can swim on his back. There is, however, just one member of the finny tribe that does it quite often. This is an inhabitant of tropical waters, known as the globe fish. The skin on the underside of this fish is loose and can be filled with air at will. When the fish blows itself out in this manner, it naturally turns on its back and goes on its way in that position.

IRISHMEN ONCE WORE KILTS

Assertion Made by New York Newspaper—Bagpipes Differed From Those of the Scots.

There is no more doubt that kilts and plaids were worn in early times in Ireland than there is that the Eirean laws were once in operation, declares the New York Evening Telegram.

In Ireland kilts of one color—saffron—were used. Nothing like the tartan, by which the various Scottish clans are still distinguished, was ever arrived at.

Irish bagpipes were of a simple type. They were not blown, but pumped and never reached the high state of development of the war instrument so closely associated with Scots fighting regiments for hundreds of years and with life in the highlands.

The Irish guards have had the pipes since their formation as a result of the Boer war.

Among those in private life who affected the use of Irish kilts in town as well as country in recent years was one of the brothers of the present Lord Ashbourne, son of the former lord chancellor.

In many minute details as to equipment, dress and custom there was a

close parallel between the two countries.

Antique gold ornaments in the Dublin museum, while of the same type as those of the ancient Scots, are different in sculptural design. But in both instances the workmanship is distinctly Celtic.

Both countries had the clan system. In Ireland the chiefs, so often inaccurately described as "kings," were nothing but the heads of families, with the dependents and slaves.

In going back to the Celtic dress and music the Irish are resuming what the Scots never entirely abandoned.

Arrangement.

Contrast is a good thing, but we must observe the laws of harmonious contrast, and unless we have space enough to secure these, it is better to be content with unity and simplicity, which are always to be had.—Leigh Hunt.

No Place for Rubber Stamp.

A written guaranty of the genuineness of a costly diamond would not be signed with a rubber stamp. If it were the purchaser would be likely to question whether or not he really had a stone of the first water.—Grit.

ROTARIANS CONVE- NE AT HIGH SCHOOL

Splendid Luncheon Served by Domestic Class of the Brainerd High School

REFAST WINS HIGHEST PRAISE

George D. LaBar Speaks to the Rotarians on Needs of the School District

The Rotarians Friday noon enjoyed a bountiful luncheon, superbly cooked and faultlessly served at the high school by the domestic science class.

There was cream of tomato soup, meat, vegetables, salad, coffee, ice cream, etc. and the viands gained high praise from the club members.

There was a 100 per cent attendance plus visitors including Miss Eula Michael and Miss Margaret Sheridan. The latter addressed the school today on "Social Hygiene."

The promise of spring in the air thrilled the Rotarians and their songs given under the direction of Song Leader F. R. N. Anderson were sung with the utmost spirit and harmony. "Leave Me With a Smile" carried memories of the district meeting in Duluth.

The "Prairie Flower" and its whirling dervish chorus nearly upset the equanimity of the domestic science class which wondered what was coming next.

"It is the custom of the Rotarians," said President Michael, "to visit public institutions, ascertain their needs and work with them accordingly. The club went to the school in a body so as to find out what the needs of the schools are."

Upstairs in the assembly room, after the luncheon, George D. LaBar spoke on the urgent needs of the Brainerd school district and voiced the first necessity, a new high school. His address, coming from one both a Rotarian and member of the school board, was listened to with the utmost attention.

Among the announcements made was the coming dual meeting of Lions and Rotarians next Wednesday evening.

It was stated the Rotarians in the future would meet every Friday.

Secretary Walter F. Wieland announced the club would soon receive its promised gavel.

One of the stunts carried out after the serious part of the program of the assembly room was a skit with Miss Oberg acting as teacher and calling up Dan Whitney to spell and reminding another Rotarian for not having hands which passed the sanitary stage of cleanliness. It was all funny stuff and convulsed the crowd.

To show the heart of the Rotarians was in the right place, each man paid a dollar for his luncheon. As announced by Supt. W. C. Cobb, all moneys above the cost of the school meals go into a fund for the purchase of other supplies, etc.

SACRED-SECULAR PROGRAM

Given by Augsburg Seminary Band of Minneapolis at Bethlehem Lutheran Church May 4

A program of sacred and secular music will be given by the Augsburg Seminary band of Minneapolis at the Bethlehem Lutheran church of South Seventh street on Thursday evening, May 4, at 8 o'clock. There will also be vocal numbers interspersed with the instrumental selections.

The band is one of 18 pieces and is led by Dr. Carl H. Petri, director who has gained fame in his calling.

Saturday Night Dance at Nisswa

Alcock, the Trombone artist will play at Nisswa Saturday.

On the snare drums will be our famous player, Willie Tibbets.

Louie Johnson will tickle the ivories.

Also a Pyeff on the banjo and Edling on the piano.

Everyone come to Nisswa Saturday night.

Ascribed to Unknown Race.

Pits or shallow wells for the collection of oil were found in the United States by the earliest explorers, and are believed to have been the work of that race which lived here before the Indians came from Asia or Northern Africa, or wherever they did come from. The belief is that these pits for oil were dug by those unknown and unaccountable people who built mounds in the Ohio and Mississippi valleys, worked lead ores in Kentucky and mined copper in the Lake Superior region.

"Fifty-four Forty, or Fight." "Fifty-four Forty, or Fight," was a cry adopted during the northwestern boundary discussion by those who disapproved of yielding our claims to the territory short of 54 degrees 40 minutes of latitude between the Rocky mountains and the Pacific ocean.

RURAL TEACHERS IN SESSION TODAY

The spacious assembly room of the Chamber of Commerce was crowded Friday afternoon by the convention of the County Teachers Association. Mrs. Mary Curo of Jenkins, president of the association, presided.

The first numbers on the program included a violin duet with piano accompaniment by the Misses Georgia Drexler, Cecil Morrison and Alice Regina Johnson.

George Lamb of St. Paul, a well known reader, gave some admirable selections.

There were other numbers, all of which were given the most hearty applause. A committee of ladies will serve a 6 o'clock dinner at the Chamber this evening to which the city teachers are also invited.

Saturday morning there will be a business meeting and the spelling contest of the pupils of the rural schools. Leon E. Lum of Duluth has donated \$10 in prizes.

Saturday from 11 a. m. to 2 p. m. the Business and Professional Women's club will serve tea to the rural teachers at their rooms.

"THE BAT", GREAT MYSTERY PLAY

Crowded House Greets Capable Company at the New Park Theatre on Thursday Evening

MANY FROM OUT OF TOWN HERE

Play Kept Tension of the Audience at High Pitch Throughout. Full of Thrills and Humor

"The Bat" drew to the New Park theatre Thursday evening a crowded house and every one present from parquette to gallery was pleased with this mystery play, full of laughs and thrills, which keeps the attention of the audience keyed up to a high pitch. There is no solving the remarkable series of incidents until the last fall of the curtain. The audience was a remarkable one, there being people present from the city and from a radius of 30 miles from Brainerd.

Those who witness it once want to see it again largely for the purpose of seeing why they could not discover the identity of "the Bat" the first time. As a mental stimulus it registers high. The company was a most capable one, the scenery superb, stage effects wonderful. The play justified all the praise given it by the advance press notices.

The play has a remarkable fascination and that accounts for its long runs in the cities. In New York it has appeared continuously for a year and is still being produced. A long run was recorded in Chicago.

The humor is of the spontaneous kind, the situations produced remarkable, and the thrills so hair raising at times that women actually shrieked. As one lady said: "I wasn't scared, but I just couldn't help yelling when 'Lizzie' did."

Up in the gallery thrills became so real that several gods were unseated in the excitement from jumping up and sitting down where seats were not.

COMMITTEES NAMED

Parent-Teachers Association of Whittier School Names Child Welfare and Relief

The Parent-Teachers Association of the Whittier school at its regular meeting held on Tuesday elected as officers President Mrs. A. M. Opsahl, Vice President Miss Louise Barret, Secretary Mrs. Louis Knudsen and Treasurer Mrs. R. T. Campbell.

Upon recommendation from Mrs. W. H. Gemmell two standing committees were appointed, a child welfare committee to assist in matters of child welfare and child health, co-operating with Miss Engsborg, the county nurse; and a relief committee to assist in providing clothing for children who are out of school because they lack the necessary garments; this committee to cooperate with Miss Michael, the public health nurse.

Mrs. O. J. Bouma and Mrs. J. E. Jackson were appointed on the child welfare committee and Mrs. J. F. Clibuzar and Mrs. J. R. Smith to assist in relief work.

Those taking part on the program were Loneta Hayes who gave two piano numbers, and Gordon McPherson who narrated a small boy's highly imaginative encounter with bears.

A rising vote of thanks was given to all who have given of their time and talent in appearing on the programs this year.

AUTO BANNERS TO HERALD NEWS

To Proclaim the Coming Fiftieth Anniversary Celebration in Brainerd July 3 to 9

CHAMBER BACKS CELEBRATION

At Next Meeting April 26 Chamber Will Give Special Consideration to Celebration Week

One of the means of advertising adopted by the publicity committee of the Fiftieth Anniversary Celebration, is a banner to be placed upon automobiles. These will be sold to owners of cars at the approximate cost of 45c.

Some of the business men have signified their willingness to give the space in the daily paper, ordinarily used by them, to be used for giving publicity to the Semi-Centennial.

The next regular meeting of the Chamber of Commerce, which will be held Wednesday, April 26th, will give special consideration to the Celebration week and the business men are urged to be present and discuss the various plans of the general committee. The old lumberjacks are responding to the call for assistance in the big parade and are making arrangements for a demonstration that will bring back to the minds of the old settlers, the days when this was a great lumbering center.

A load of real logs and a wannigan will be two of the things featured by the ex-lumberjacks and they are planning on an old fashioned lumberjack dinner, prepared by a lumberjack cook, winding up with a stag dance. One of the problems in ventures of this kind, is finance. The Park Theatre company is assisting splendidly by donating the theatre, a picture and the assistance of their employees, without charge to the committee, for next Tuesday night. The picture "Star Dust" is a real First National photoplay.

A male quartette will sing between the main picture and the comedy and it is hoped that one or two other features may be added. The committee has set the price of 35c for tickets to this show.

Col. C. D. Johnson was first to take 100 tickets and the colonel reported that he had heard from Bozeman, Montana, where seven past residents of Brainerd now reside, and who have signified their intention of attending the celebration of the Fiftieth anniversary.

Sunshine Circle

Mrs. Fred Reid of Oak Lawn entertained the Sunshine Circle of the Methodist church Thursday afternoon. The bus took twenty ladies from city to farm home, and in addition many traveled out in their own cars. The afternoon was spent in music and conversation. A delicious lunch was served.

NOTICE

To the Lot Owners of Evergreen Cemetery Association:

Owing to the fact that there are many lot owners in Evergreen Cemetery that have neglected to pay for the care of their lots for the past season, and several for the past two or three seasons, the Committee in charge have decided and so ordered that no work whatever will be done on any lot that has charges against it, hereafter, until all charges are paid. And the committee on grounds have decided that all persons who desire to have their lots cared for, during the coming season, must list them with the Secretary, J. T. Sanborn, of the Probate Court, and pay for same in advance. No orders will be taken at the Cemetery as heretofore.

The care of lots will be the same as last season, being full lots, \$5.00 and half lots \$3.00. On or before the first day of May, 1922 a perpetual care contract will be issued for \$100.00 and after May 1st, 1922, \$150.00.

Your respectfully,

THE COMMITTEE

SELLING STOCK TO BUILD HOMES HERE

Are you a stockholder? This is the question that will be asked every business man in the city, by one of the solicitation committee of the Brainerd Building and Loan Association. The same question will be asked at the N. P. shops and in every residence in the city.

"When people once realize the value in in of our community of this co-operative building and loan association and the absolute safety to the investor, the committees will have little difficulty in getting subscriptions for paid up stock", said S. R. Adair, president of the association.

Adding more homes to the community is a great thing, but converting men and women to the "Own Your Own Home" idea is the greatest asset to any community.

The safety of the funds entrusted to this association is insured by the state law, which provides that the State Superintendent of Banks, will have constant supervision over the books and affairs of building and loan associations and must visit through examiners, at least, twice each year all building and loan associations, inspecting and verifying assets and liabilities.

V. L. Hitch, E. O. Webb, F. E. Little, S. R. Adair, W. R. Greenwood and O. J. Bouma, compose the committee which have for its aim, the selling of \$25,000 in paid up stock before May 3rd.

DORCAS YOUNG PEOPLE

To be Entertained This Evening at Swedish Bethany Church by Mesdames Stenberg and Erickson

Mrs. J. Stenberg and Mrs. John Erickson will entertain the Dorcas Young Peoples society of the Swedish Bethany church this Friday evening at the church. The society extends a hearty welcome to everyone, young and old, to be with and enjoy this social meeting. The following program will be given:

BEN SAID--

Back in 1740, Ben Franklin said, "The family of fools is ancient."

During the past year people in this country have lost more than \$500,000,000 in fake and "blue-sky" investments.

Every passing year brings its crop of foolish investors who might save and gain through the advice and counsel of their banker. Keep your money in this strong, sound bank. Be safe than sorry!

AMUSEMENTS

A True Picture of "The West"

Coming to the Lyceum tonight only is "Sunset" Jones, a high class Western drama—an epic novel of the west—which will afford an enjoyable evening for those who are weary of sex triangles and society plays.

Through five compelling acts the audience breathes the suspenseful atmosphere of our vigorous West, while Charles Clary, in the title role, holds their sympathy in his big "clean-up" of the railroad wrecking gang. "Sunset" Jones is a strong drama of high moral tone, brimful of quick action and beautiful scenes.

Robinson Crusoe at Lyceum Tomorrow

A wise writer once said: "If you want to do something worth while in the world, please the children."

Universal has done just this in giving to the screen "The Adventures of Robinson Crusoe," which starts at the Lyceum theatre Saturday. There is scarcely a boy or girl in the world who has not read and been thrilled by the life of the venturesome Defoe hero. They may have been deprived of the advantage of a common school education, but by some hook or crook you can count on them being familiar with Crusoe, whether they are white, yellow, red or black.

In the eyes of the children Crusoe for many years has held the same position as the heroes of history have with but one difference—he is loved even more.

Little Johnny may not be sure when Columbus discovered America, but you may count on him knowing in chronological order the adventures of Robinson Crusoe.

And because the escapades of this beloved hero furnish such wholesome and inspiring entertainment for children, Universal took advantage of its popularity and has further immortalized the story by giving it to the world in the universal language of the screen.

Through the story of Robinson Crusoe is partially fictitious the continuity writer, Emma Bell Clifton, and the director, Robert F. Hill, have seized every opportunity to make every one of the eighteen chapters educational as well as entertaining. The resourcefulness of Crusoe on the desert island, the wonderful friendship between Crusoe and Friday and the locale in foreign shores are vivid and graphically instructive.

Hoot Gibson at Lyceum Saturday

In a screen version of Peter B. Kyne's famous story, "The Sheriff of Clinebar," which Universal has titled "Red Courage," Hoot Gibson, the smiling star comes to the Lyceum theatre Saturday, matinee and night, in his second starring vehicle.

"Red Courage" is a vivid story of a political fight in the western town of Panamint. It takes a Peter B. Kyne to paint the picture of the absorbing human characters who live and love throughout the five reels.

Interwoven into this picturesque background is a two-fisted story of a fight—the fight of a man against tremendous odds—the fight against the corrupt influences of a crooked political gang—the fight of a man for a girl's love.

Hoot Gibson, as the smiling, happy-go-lucky Pinto Pete, who falls heir to a one-horse newspaper, "The Panamint Gazette," is still Hoot Gibson—which is probably the greatest compliment that can be paid him. His easy-going, affable personality is irresistible in "Red Courage," where he also has ample opportunity for displaying his famous fighting qualities.

"Steelheart" at Park Tonight

In making scenes for "Steelheart," the Vitaphone production which will be shown at New Park tonight only, William Duncan, star and director, had a thrilling experience which he will not soon forget.

The script called for him in a combat on a rocky cliff to fall into the water with his adversary and swim the rapids. The spot selected as a location was on the Kern river in California, where a ledge rises some twenty feet above the rapids.

At the edge of this cliff Mr. Duncan and one of his players fought a real fight. Mr. Duncan insists upon realism and always believes in giving a real exhibition of boxing in fight scenes. The two players were so interested in their combat that they ac-

WILLIAM DUNCAN IN SCENE FROM "STEELHEART"

tually went too close to the edge of the cliff and fell into the water. Mr. Duncan broke away from the grasp of the man, while cameras clicked, and then started to breast the rapids.

There were many sharp rocks in the river bed, and several of them left marks upon the actor's body. The current moved so rapidly that Duncan was forced to exert great strength in order to prevent being carried away by the current.

After an hour's battle he pulled himself up to the shore, fatigued and almost exhausted. It was fully half an hour before he could get his breath, and it was the next day before he was able to do any more work.

Studio Set Solves Newlyweds' Problem

What becomes of the studio sets after they have served their purpose in a motion picture?

The furniture, of course, is frequently used over again in some other pic-

ture, or either sold or exchanged for new stuff.

But what about the houses, buildings, street cars, etc., that are so often built inside a studio? Some are stored for future use, but most of them are torn down and the lumber saved for any new construction that may be necessary.

But now and then an entirely different disposition is made of them, as evidenced by the case of one perfectly good house that was constructed

for some of the most important scenes in "Stardust," the First National attraction, which will be shown at the New Park next Tuesday.

High Price of Forgery.

Three hundred years ago forgery in Britain was punishable by death. In earlier times still, the punishment was standing in the pillory, having both ears cut off, having the nostrils slit and perpetual imprisonment.

WHAT IS LOVE ? ?

It is the mysterious something that causes woman to leave her fireside for heaven knows what—

It is the desperate urge that compels man to throw to the winds even the ideals he has cherished through ages.

?

Do You Know What Love Is?

VON STROHEIM (the man you will love to hate) DOES, and he knows women. And he knows what women who imagine themselves in love do.

He shows just how they suppress or demonstrate love. All the peculiar twists and tangles that upset even the proudest women. He depicts this in a background of splendor such as the eye of a camera has not looked upon since the first movement of human beings were recorded in action.

NOW— A Written Guarantee to Grow Hair

No Hair—No Money is our proposition

We have a new method of treating the scalp. It grows hair. It stops falling hair. Under actual clinical tests it grew hair on 91 heads in each hundred treated.

This is to offer it to you. Results are guaranteed. If we fail, you pay nothing. Your own druggist signs the guarantee. Hence you assume no risk in testing it.

The name is the Van Ess Liquid Scalp Massage.

We make so broad a guarantee for this simple reason:

For years the public has been deceived with countless "hair growers" and with treatments. Now most people believe hair cannot be grown—they are skeptical. And with good reason.

Ignorant men have claimed success where men of science failed. It is hard to separate the wheat from the chaff. We don't ask you to try. We guarantee results. You get your money back if we don't succeed.

We are men of science. We think in terms of science. We have effected a new method—a scientific method that our own test charts prove 95% effective.

We have traced the source of most hair troubles to a simple infection—infected Sebum. We remove that infection—hair then grows.

Hair Roots Seldom Die

Dermatologists used to believe that a bald head meant dead hair roots. We have proved this incorrect. The roots seldom die. Four men in 7 are bald or partially bald at 40. Yet only 5 men in 100 need ever be bald.

We have seen new hair on heads once bald. So-called hopeless cases of

semi-baldness, of hair fast falling, we have checked in 2 weeks. We have proved our point to world authorities. Now great dermatologists employ this new method. High medical authorities approve it. Baldness, they say, soon will be a rarity.

Infected Sebum

95% of all hair troubles are traced to infected Sebum.

Sebum is an oil. It forms at the roots of hair. Its natural function is to supply the hair with oil.

But frequently it becomes infected. It cakes on the scalp. It plugs the follicles and chokes them. It forms a breeding place for bacteria—germs by the millions feed upon the hair and destroy it.

It invites semi-baldness. Soon total baldness follows. But it does not kill the hair root. Remove the infected Sebum—normal hair growth is resumed. This is scientific fact. We guarantee results in writing.

Now Science Overcomes It

In the Van Ess Treatment we have embodied new scientific principles. You apply it a new way. (Note illustration at right.) It combats the infected Sebum and removes it. It penetrates to the follicles of the hair. It revives dormant hair roots and grows new hair.

We urge you to try it. Then note results in two weeks. Note the healthy condition of the scalp—the freedom of dandruff, how falling hair is stopped. Obtain it at your druggist's. Your money returned if results are not obtained. We assume all the risk. Hence it is folly not to make the test.

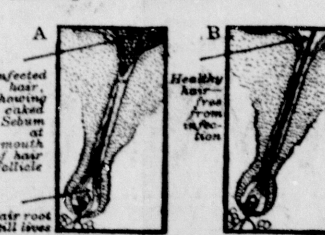

Pay Nothing

Unless we grow hair. The Van Ess treatment is absolutely guaranteed. You are the sole judge. The warrant is signed by your own druggist. You assume no risk making this test.

Note this New Way —It Massages the Treatment Directly into the Follicles of the Hair

This patent applicator makes hair treatment, at home, possible for the first time. Blood alone revives. Treatment must reach the infected area under the surface. We accomplish it, as the illustration above shows, with hollow nipples of a scientifically perfect rubber massage-cap which comes with every bottle of Van Ess Hair Grower. The lotion is fed directly into the follicles of the hair. At the same time the flow of blood is stimulated by massage to the hair root.

These two pictures show a cross section of the hair root or bulb and the case which encloses each hair from the root to surface of scalp (greatly magnified). Germ infected Sebum causes 95% of baldness and falling hair. Remove it and hair will grow. Illustration A shows Sebum infected hair and B healthy hair.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys; they become overworked; get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease. Adv.
